[1] Revenues from improvements to concession assets are recognized in accordance with International Financial Reporting Interpretation Committee 12 "Service Concession Arrangements" (IFRIC 12), but this recognition does not have a cash impact or an impact on the Company's operating results. Amounts included as a result of the recognition of IFRIC 12 are related to construction of infrastructure in each quarter to which the Company has committed in accordance with the Company's Master Development Programs in Mexico and Capital Development Program in Jamaica. All margins and ratios calculated using "Total Revenues" include revenues from improvements to concession assets (IFRIC 12), and, consequently, such margins and ratios may not be comparable to other ratios and margins, such as EBITDA margin, operating margin or other similar ratios that are calculated based on those results of the Company that do have a cash impact.

- **An increase of Ps. 137.0 million at the Mexican airports**, or 13.0%, mainly due to an increase in cost of services for Ps. 151.7 million, or 39.0% (maintenance cost increased Ps. 89.1 million derived from the contracting of extraordinary services for improvements to the airport facilities) and an increase in technical assistance fees of Ps. 7.2 million, or 8.8%. These increases were offset by a decline in cost of improvements to concession assets (IFRIC 12) of Ps. 27.2 million, or 12.2%.
- **Operating costs at the Montego Bay airport increased by Ps. 78.7 million**, or 27.5% compared to 4Q16, mainly due to an increase in concession taxes for Ps. 54.6 million, as well as an increase in cost of improvements to concession assets (IFRIC 12) for Ps. 51.8 million, which were offset by an increase in other revenue of Ps. 28.0 million.

Financial cost increased by **Ps. 64.2 million in 4Q17**, from a net cost of Ps. 167.7 million in 4Q16 to Ps. 231.9 million in 4Q17. This amount mainly comprises:

- The foreign exchange loss went from Ps. 161.6 million in 4Q16 to Ps. 221.9 million in 4Q17 due to a 6.0% depreciation of the Mexican peso against the U.S. dollar in 4Q16 compared to a depreciation of 8.4% in 4Q17, **generating an increase in foreign exchange loss of Ps. 60.4 million.** This effect was offset by a net foreign exchange gain due to the currency translation effect of Ps. 84.6 million in comprehensive income, compared with 4Q16.
- **In 4Q17, interest expenses increased by Ps. 74.5 million** compared to 4Q16, mainly due to an increase in interest rates, as well as to the issuance of long-term bond certificates (*certificados bursátiles*) for Ps. 2.3 billion in November 2017.

- **Interest income increased by Ps. 70.7 million** in 4Q17, due mainly to increases in both the Company's treasury and in interest rates.

- Revenues from improvements to concession assets²

Revenues from improvements to concession assets (IFRIC 12) declined by Ps. 363.5 million, or 21.7%, compared to 12M16, as 2016 was the year with the highest committed investment under the Master Development Program for 2015-2019. During 12M17, revenues from improvements to concession assets for the Mexican airports declined by Ps. 415.3 million, while revenues from improvements to concession assets for the Montego Bay airport increased by Ps. 51.8 million, in each case compared to 12M16.

[2] Revenues from improvements to concession assets are recognized in accordance with International Financial Reporting Interpretation Committee 12 "Service Concession Arrangements" (IFRIC 12), but this recognition does not have a cash impact or an impact on the Company's operating results. Amounts included as a result of the recognition of IFRIC 12 are related to construction of infrastructure in each quarter to which the Company has committed in accordance with the Company's Master Development Programs in Mexico and Capital Development Program in Jamaica. All margins and ratios calculated using "Total Revenues" include revenues from improvements to concession assets (IFRIC 12), and, consequently, such margins and ratios may not be comparable to other ratios and margins, such as EBITDA margin, operating margin or other similar ratios that are calculated based on those results of the Company that do have a cash impact.

Total operating costs during 12M17 increased by Ps. 211.5 million, or 3.6% compared to 12M16, and comprised the following costs:

- **Operating costs** for the **Mexican airports** increased by Ps. 57.8 million, or 1.2%, mainly due to an increase in cost of services of Ps. 317.1 million, or 22.7% (maintenance costs increased by Ps. 149.9 million derived from the contracting of extraordinary services for improvements to the airport facilities), depreciation and amortization of Ps. 84.2 million, or 8.3%, as well as concession taxes of Ps. 71.7 million, or 18.4%. These increased were offset by a decline in cost of improvements to concession assets (IFRIC 12) of Ps. 415.3 million, or 25%.
- The **Montego Bay airport** reported an increase in operating costs of Ps. 153.7 million, or 13.9%, in 12M17, mainly due to costs increases for concession taxes for Ps. 108.1 million, or 28.8%, cost of improvements to concession assets (IFRIC 12) of Ps. 51.8 million, cost of services for Ps. 11.0 million, or 2.8%, as well as depreciation and amortization for Ps. 10.9 million or 3.3%. This was partially offset by an increase in other revenue for Ps. 28.0 million.

Operating margin for 12M17 increased by 370 basis points, from 47.1% in 12M16 to 50.8% in 12M17. Operating margin, excluding the effects of IFRIC 12, increased from 55.5% in 12M16 to 56.8% in 12M17. Operating income increased by Ps. 1,046.8 million, or 20.0% compared to 12M16.

EBITDA margin increased by 320 basis points, from 59.3% in 12M16 to 62.5% in 12M17. EBITDA margin, excluding the effects of IFRIC 12, increased by 10 basis points, from 69.8% in 12M16 to 69.9% in 12M17. **The nominal value of EBITDA increased by Ps. 1,142.0 million, or 17.3%**, of which the Montego Bay airport accounted for Ps. 87.9 million.

Financial cost declined by **Ps. 503.6 million in 12M17**, from a net loss of Ps. 603.0 million in 12M16 to a net loss of Ps. 99.4 million in 12M17. This amount mainly includes:

- A foreign exchange fluctuation from a loss of Ps. 500.9 million in 12M16 to a gain of Ps. 99.1 million in 12M17, due to a 20.1% depreciation of the Mexican peso against the U.S. dollar in 12M16 compared to a 4.5% appreciation in 12M17, **generating a net effect of a foreign exchange gain of Ps. 600.0 million**. This effect was offset by a net foreign exchange loss due to the currency translation effect of Ps. 999.9 million, compared with 12M16.
- **In 12M17, interest expenses increased by Ps. 299.4 million** compared to 12M16, mainly due to an increase in interest rates, as well as to the issuance of long-term bond certificates (*certificados bursátiles*) for Ps. 3.8 billion in 2017.

- **Interest income increased by Ps. 203.3 million**, compared to 12M16, mainly due to an increase in the Company's treasury and in interest rates.

Statement of Financial Position

Total assets as of December 31, 2017 increased by Ps. 3,466.1 million compared to 12M16, primarily due to the following items: i) cash and cash equivalents of Ps. 2,542.0 million, ii) improvements to concession assets of Ps. 1,031.5 million, iii) accounts receivable of Ps. 389.8 million, and iv) deferred income taxes of Ps. 283.4 million. This was offset by decreases in: i) airport concessions for Ps. 630.3 million and ii) advanced payments to providers for Ps. 184.2 million.

Total liabilities as of December 31, 2017 increased by Ps. 3,793.9 million compared to December 31, 2016. This increase was primarily due to: i) bond issuances for Ps. 3.8 billion, ii) dividends payable for Ps. 130.8 million, and iii) guarantee deposits for Ps. 145.7 million. This was offset by the decrease in bank loans of Ps. 380.9 million, among others.
